County Councillor Ian Gardener provided an update:

- The Alconbury Weald Civic Hub will hold a public open event on Thursday 28th February between 4pm and 8pm (postcode PE28 4XA) to show what the new County Council main administration staff building will be like.
- There is currently plenty of interest in buying/leasing Shire Hall.
- Steve Alexander (steve.alexander@highways.gov) is the interim Highways contact as successor to Jo Challis.
- Hunts registry Service (for births, marriages, deaths) will be moving into the library; Lawrence Court will continue as the place where ceremonies will be held.
- At the budget meeting the County Council agreed a 2.99% increase on Council Tax, plus a 2% increase for Adult Social Care. The increase is partly due to inflation and increased demand pressures across service areas, in particular Adult & Children's Social Care funding.
- There is additional funding from the government and from Highways (for potholes etc.)
- Last month 1100 potholes were repaired by dragon patches; Cllr Gardener urged people to use the online reporting tool.
- Consideration should be given soon to Local Highway Bids for next year; an engineer visit can be arranged if required.
- CFRS was rated as at a good standard and one of the best two performing Fire Authorities of 14 inspected by Her Majesty's Inspectorate.
- Ofsted also a very good report across the County.
- Paint can be taken to recycling centres to be mixed and used again (for charities etc.)
- The Mayor is looking at a strategic bus service review but for this year services will remain unchanged.
- Electric charging points are being looked at by various villages.
- No further update regarding the heating scheme discussed in December.
- A village in the County is discussing a grant for getting solar panels for their village Hall.
- Cllr Gardener has put in an objection to the new catchment arrangements for Hinchingsbrooke School (which would affect Spaldwick students).

Residents spoke to raise concerns regarding the proposed development of a pair of semi-detached houses on the Land East of Ivy House (item 19/02/21.4):

- A resident expressed that they had no objections to one large house but that two houses weren't appropriate, that a 5m opening in the brick wall would harm the significance of Ivy House but that a 3m opening would only be suitable for one house and that they would like a fitting neighbour to Ivy House to preserve the nature of a listed building.
- Another resident noted that there are no other semi-detached houses in the area, that there is limited allocated parking and that two houses would require double the parking, that the reduced wall opening would leave larger vehicles unable to enter the development, that it would be a hazard for traffic turning left and residents of Ivy House and that the semi-detached properties would result in traffic and light disruption to other households.
- A third resident with a boundary to the proposed new development stated that two houses would result in double the noise and smells (e.g. from BBQs) for neighbours and that with the current housing that is in place, during inclement weather the pumping station already doesn't cope, with sewerage pipes backing up along Ivy Way, and that two further houses would result in double the additional load of waste water.
